Variable Declarations:

Var

1. var userName = "Prasanth";
   console.log(userName);

2. var userId = 45;
   console.log(userId);

3. var userAge = 26;
   console.log(userAge);

4. var userAddress = "Chennai";
   console.log(userAddress);

5. var userContact = 9952717393;
   console.log(userContact);

6. var userMarks = 85;
   console.log(user Marks);

7. var telephoneNumber = 9952717393;
   console.log(telephoneNumber)

8. var vehicleName = "Mercedes Benz";
   console.log(vehicle Name);

9. var vehicle Type = "car";
   console.log(vehicle Type);

10. var alternateName = "Loki";
    console.log(alternate Name);

let

1. let FirstName = "Prasanth";
   console.log(FirstName);

2. let LastName = "S";
   console.log(LastName);

3. let UserAccount = "Prasanth.S";
   console.log(UserAccount);

4. let LoginPage = "login";
   console.log(LoginPage);

5. let OrderId = 10;
   console.log(OrderId);

6. let ProductId = 100;
   console.log(ProductId);

7. let MobileNumber = 9952717393;
   console.log(MobileNumber);

8. let EmailId = "prasanthsabthu122000@gmail.com";
   console.log(EmailId);

9. let Homepage = "Google";
   console.log(HomePage);

10. let CardNumber = 123456789;
    console.log(CardNumber);

Const.

1. const employee_name = "Prasanth";
console.log(employee_name);

2. const employee_id = 45;
console.log(employee_id);

3. const employee_contact = 9952717393;
console.log(employee_contact);

4. const employee_mail = "999@gmail.com";
console.log(employee_mail);

5. const employee_address = "chennai";
console.log(employee_address);

6. const course_name = "Full Stack";
console.log(course_name);

7. const laptop_brand = "Asus";
console.log(laptop_brand);

8. const screen_size = 16;
console.log(screen_size);

9. const battery_capacity = 80;
console.log(battery_capacity);

10. const internet_speed = "5G";
console.log(internet_speed);

11. const languages_known = 2;
console.log(languages_known);

12. const class_name = "Technical";
console.log (class_Name);

13. const classroom_number = 15;
console.log(classroom_number);

14. const Project_name = "Roadside Assistance";
console.log(Project_name);

15. const project_id = 3;
console.log (Project_id);

16. const employee_experience = 5;
console.log(employee_experience);

17. const employee_salary = 50000;
console.log (employee_salary);

18. const Programming_language = "Javascript";
console.log (Programming language);

19. const favourite_game = "God of War";
console.log(favourite_game);

20. const favourite_movie = "Avengers Endgame";
console.log (favourite movie);
